Bellef That He Has Now Asserted His Authority and Will Behead Prince Tuan-To Leave

the Empress Downger at Singan-fu-No Power Anxious to Prolong the Crisis. Special Cable Despatch to THE SUN. LONDON, Oct. 18.-There is reason to believe that the British Foreign Office received satis-

factory news from Pekin yesterday, indicating he early return of the Emperor and his Court to the capital, while the Empress Dowager remains at Singan-fu. If this inference is orrect it means also that the Emperor has plucked up courage, with the assistance of the strong men of his Court, to arrest Prince Tuan and drag him to Pekin for public execution. If the Powers secure Prince Tuan's head they will not be unduly curlous as to his accomplices in the massacres, for all are more or less apprehensive of the consequences which might result from an undue prolongation of the crisis. All, too, are saturated with the knowledge that and all her jewelry has been given to her relathe Chinese hedgehog is a remarkably prickly thing to tackle. There will be little trouble over the question of indemnity. China knows \$200,000. that there will be big bills which will have to be paid and has interested friends who are prepared to find the money despite all that has occurred.

It is also said that negotiations are proceeding between Russia and Japan, which will result in the defining of spheres of interest, and which will practically give to Japan a free hand in

dealing with Corea.

Lord Salisbury still maintains an absolute silence as to his Chinese policy. The country has resigned itself to expecting a somewhat inglorious position there. It is still understood that Lord Salisbury is cooperating with Germany in seeking to adjust the Kaiser's wishes to the interests of the allies.

LI HUNG CHANG IN PEKIN. Gen. Chaffee Does Not Approve of the Pac-

ting-fa Expedition. Special Cable Despatches to THE SUN.

From a Staff Correspondent PERIN, Oct. 11, via Tientsin, Oct. 12, and Shanghai, Oct. 18. 7:85 P. M .-- An expedition of 4,000 men, consisting of British, Germans, French and Italians, will leave for Pao-ting-fu to-morrow. The men will carry three weeks' rations. It is expected that an expedition of 7,000 will leave Tientsin for the same point at the same time. The purpose of these expeditions is to dislodge the Boxers and rescue a band of foreigners supposed to be at Pao-

It is believed that the Court has moved from Taiyuan-fu to Singan-fu because of the fear of an attack by the foreigners.

IA Hung Chang has arrived here. BERLIN, Oct. 13 -- Despatches from Tientsin ony that the punitive expedition to Pao-ting-fu is regarded as a strategic movement on Sincan-fu. It will be followed by another one from Hankow for the purpose of cutting off the new capital from sources of supplies.

CHINA'S OFFER NOT SATISFACTORY. Ministers at Pekin Decide That Some Guilty Ones Are Being Shielded

Special Cable Despatch to THE SUN. BERLIN, Oct. 13 .- A Tientsin despatch of yesterday's date says that a conference of the diplomatic representatives was held at Pekin on Oct. 8, at which the British Minister, Sir Claude Macdonald, precipitated a discussion over the terms of the German note of Oct. 1.

Regarding the first point, as to the adequacy of the list of those selected for punishment by the Chinese Emperor, the conference declared that two of the chief culprits, namely Tung Fu Hsiang and Yue Hsin, had been omitted from the list of the ringleaders. On the second indicated in the edict should be declared inadequate. Thirdly, the conference insisted that the penalties to be imposed should be executed by men delegated by the legations.

VICTORY FOR SOUTH CHINA REBELS. Defeat Admiral Ho's Force-Precautions

Taken at Shanghai and Canton. Special Cable Despatch to THE SUN. Berlin, Oct. 13 .- A Shanghai despatch to

the Lokalanseiger says the foreign garrisons have been strengthened owing to the threatening conditions in the southern provinces. The rebels have massed 10,000 men in

Szechuan and are marching toward Huchon-fu. A despatch from Hong Kong says the rebels who have been looting in Szechuan have been victorious over Admiral Ho, who was pursuing them to the north. He lost forty killed and the rebels took many prisoners. Thirty Chinese soldiers were beheaded.

Six cities in the Waechau prefecture have been occupied by the rebels and the situation is serious. There is also danger in Canton owing to the

depletion of the garrison for service elsewhere.

JAPAN HAS NOT REPLIED.

France Expects a Favorable Answer, However, When the New Premier Takes Charge.

Special Cable Despatch to THE SUN.
PARIS. Oct. 13.—All of the Powers except Japan have responded to the note of M. Delcasse concerning China. The failure of Japan to make reply is attributed to the ministerial crisis. The outgoing Premier is unwilling to commit the nation to a future policy, and the incoming Premier, Marquis Ito, is not year

qualified to do so. In official circles here, however, it is believed that Japan's reply will be satisfactory, although it may follow the apparently fashionable example of making some unimportant reserves.

RABID BOXER PROMOTED.

The Notorious Yn Chang Made Associate Viceroy of Hupeh.

Special Cable Despatch to THE SUN From a Staff correspondent of THE SUN.
SHANGHAI, Oct. 13.—The notorious Yu Chang. Governor of Henan Province, has been transferred to Wuchang as Associate Vicercy of Hupeh. Yu Chang is a brother of Y Lu, the former Viceroy of Chili. He is known as a rabid Boxer. His appointment is distinctively anti-foreign and is doubtless meant to disturb conditions. It is felt here that the Powers should interpose to prevent Yu Chang Irom causing mischief.

FUSILLADE FROM FORT SLOCUM. Directed at Escaping Recruits Swimming the

Sound-Recaptured Unburt.

NEW ROCHELLE, Oct. 13.-A detachment of soldiers rushed through this place late last night in search of two prisoners who had just escaped from the guard house at Fort Slocum, on Davids Island. The fort is garrisoned by a battery of the Seventh Artillery and is used as a recruiting station, there being about five hundred rookies on the island. Most of these enlisted thinking that they would be sent to China or the Philippines and as soon as they by stealing away at night and swimming across
the Saind to the mainland about a mile away.
On Thursday night eight recruits tried to
escape. Waiter Evans and Henry Heenan
were captured and imprisoned in the guard
house. Last night they broke out and succeeded in swimming across the Sound on small
planks. The sentries fired shot after shot at
them, the bullets striking the water all around
the would-be deserters, but they were not hit.
Then the authorities telephoned to the police
and sent over a detachment armed with rifles
to capture the deserters.

The soldiers looked over everybody they met
and finally to the alarm of the bassengers
boarded the midnight train for New York.

Policeman Brown later arrested Evans. He cried as he told how the two had risked their lives and were almost shot by the sentries. The prisoners were taken back to the fort and court-martialled. They are likely to receive long terms in the military prison. Thomas smith, the English recruit who was almost killed by Privates Wood and Jackson in Long Island Sound, has also deserted. Wood and Jackson were sentenced last week to twenty years in Jall.

A Sioux Falls Hotel Does Not Allow a Colored

SIOUX FALLS, S. D., Oct. f3. - The proprie tors of the Tetton of this city, the largest hotel in the State, have brought down upon their heads the anger of the entire Methodist Church in this State by their refusal this morning to let the Rev. Dr. M. C. B. Mason, colored, eat in their dining room. The Rev. Mr. Mason is from Cincinnati and is Secretary of the Freedmen's Aid Society. He came to this city late last evening to attend the annual State Methodist Conference and spoke in the Auditorium. This morning the hotel proprietors notified him that he would not be permitted to eat in their public diring room, but that he could have his meals served in his room. When he applied for room and board last night at the hotel no objection was made to his registering. The Conference is very much worked up over the affair. heads the anger of the entire Methodist Church

The New French Liner Arrived Here Last Night-Had Trouble With Machinery. The new twin screw French liner, La Lorraine, designed to make 22 knots from port to port, was signited east of Fire Island at 9:30 o'clock last night. She was spoken about 450 miles off the Irish coast on Monday, two days after she left Havre, by the American liner St. Paul, in yesterday from Southampton. La Lorraine signalled the Yankee that she was disabled, but needed no as istance, as she could make repairs at sea. There was a stiff southweste ly gale blowing and a high read sea. La Lorraine was making about

a stiff southweste by gale blowing and a high head sea. La Lorraine was making about 12 knots.

Evidently the steamship's engineers made repairs quickly and she doubtless proceeded thereafter at full speed with both engines. She will reach her dock early this morning.

The impression aboard the St. Paul was that the Frenchman's port engines were decaused. That is what Pilot Thomas Jackson, who brought the St. Paul in, says.

Jackson brought back his sick sister from Europe. The pilotboat Washington made an effort to send a pilot aboard the St. Paul, but when she learned by signals that the American liner had a harbor guide of the guild she stood away seeking other transtalantic same.

Some of La Lorraine's passengers are Theobald Chartran the artist, Gen. Abbott of the Panama Canal Company, F. Macmonnies, Mr. and Mrs. Nelson Cromwell, Mr. and Mrs. A. Smith, Mr. and Mrs. S. E. Morss, Miss Morss, M. and Mme. N. Chapins, Mile. Phillippot, Mrs. William M. Brown, the Misses Brown, Mr. and Mrs. A Smith, Mr. and Mrs. A. Gross, M. de Koutkorky, Jules Boenfoe, H. Gourd, Mme. Gourd and Charles D. Aubigne.

L. C. Hanna, brother of Senator Mark Hanna, was a passenger on the St. Paul. He declined to talk politics, declaring that one member of the family in the great game was enough. F. Horykinson Smith, Wade Hampton and Robert Treat Paine also were aboard the St. Paul.

TRIED TO DESTROY HIS ENEMY. Assault in a Blast Furnace That Might Have

Resulted in a Wreck and a Murder.
PRITSHURG, Oct. 13.—Michael Canavan, a
workman at the Carnesie Company's blast furnace in Braddock is under arrest charged with aggravated assault and battery on Benjamin Thompson, a fellow workman. Canavan and Thompson are enemies. Canavan takes tests of the molten iron and carries the tests to the laboratory of the works to be tested. At about 2 o'clock this morning a 'heat' was being poured from the furnace into the moulds in the 'cass house." Thompson was standing close to the stream of moiten iron. Sudde ly Canavan picked up a test, seven pounds in weight, dipped it in water and hurled it toward the metal. His purpose was to cause the melted iron to spiatter over Thompson. The test buried itself in the sand a few inches away from the iron. Had the wet test fallen in the liquid metal a terrible furnace-wrecking explosion would have ensued. Falling in his attempt to destroy Thompson, Canavan is held to await the result of his victim sinjuries. min Thompson, a fellow workman. Canavan

MACHINERY FOR SOUTH AFRICA.

Large Shipments Into the Transvani Have Been esumed. CHICAGO, Oct. 13. Shipment of mining nachinery to South Africa has been resumed machinery to South Africa has been resumed by the Fraser & Chalmers Company. Thousands of dollars' worth of machiners, which could not be delivered because of the Boer war, is now going forward and new orders from the Transvaal region are coming in rapidly. The big plant is taxed to its car acity and there is business enough in sight to keep the establishment busy for monther.

The indications are that the Transvaal will soon enter upon an era of prosperity such as it has not known before. soon enter upon an era of prosperity such as t has not known before.

CITY TIME, DETROIT, NO MORE.

After This There Will Be Only One Time There and That Will Be Standard. DETROIT, Mich., Oct. 13. - Detroit city time, which has for years been an annoyance to nearly every class of business interests in the city, is to be discontinued. Next Monday city, is to be discontinued. Next Monday morning thousands of Detroit shop employees will start to work on standard time. Eighteen factories have decided to start on that time on Monday morning. There will be no difference in the working hours, and the only change will be a refreshing forgetfulness of the time entanglement which has branded Detroit as an old fashioned burg, the only city of any consequence which has more than one standard of time.

MINERS' TERMS.

10 Per Cent. Advance Must Con-

tinne Till April 1.

THE SLIDING SCALE TO GO.

It Is Believed Operators Will Concede Demands.

Signs of Dissent in the Wikes-Barre District Reading Company Will Probably Agree to the Terms - Miners' Convention Proposes a Reference of All Questions to a Board of Arbitration if Its Demands Are Not Compiled With-Resolutions Unanimously

Adopted and the Convention Adjourns. SCRANION, Pa. Oct. 13 - The convention of the United Mine Workers, which began in this city was a long time between mails at Guam before | yesterday morning, has ended, and it is now up to the mine operators to decide whether operations will be resumed next week as usual. Final adjournment of the convention was reported at 4.15 o'clock this afternoon. The whole afternoon was taken up with the report of the Committee on Resolutions. These resolutions embody the conditions under which the miners agree to accept the offer of the mine owners of a 10 per cent. advance. They read as follows:

"We, your committee, respectfully submit the following preamble and resolutions "Whereas. The anthracite coal operators have offered to increase wages 10 per cent., to reduce the price of powder to \$1.50 a keg. the reduction to be figured in the advance to contract miners, and to adjust all other grievances of their employees, and,

"Whe eas, They have failed to say for what length of time they will agree to do so; "We would recommend that this convention accept an advance of 10 per cent, providing the operators will continue its payment until April 1, 1901, and will aboush the sliding scale in the Schuyikill and Lehigh regions. The scale of wages in the two last named districts to remain stationary at 10 per cent above the present basis price, and that the companies will agree to adjust the grievances of their other employees.

Should this proposition be unacceptable to the operators, we recommend that the convention propose that all questions at issue be submitted to a fair and impartial board of "We would further recommend that under

no circumstances should there be a resump-

tion of work at any of the collieries until the

operators signify their acceptance of this proposition, and until you are notified officially that the strike is ended and all return to work in a body on the same day." As soon as all the operators have signified an assent to these conditions the great strike

in the anthracite region will have reached an end. The questions of semi-monthly pay and the abolition of company stores were passed Edwin Fletcher of Providence Falls From the without extended comment or serious attention. It was decided that the remedies for

One operator who has been in attendance at the New York conference was nothed by telephone as soon as the convention had completed its work of the decision arrived at. He would make no comment over the wire. It is generally understood that a meeting of the operators will be held at once and the proposition of the miners passed upon. It is the general belief that the slight additional concessions asked by the miners will be accepted.

Among the interesting figures who accompanied President Mitchell was "Mother" Mary Jones of Chicago, who has who accompanied President Mitchell was been doing much organizing work in the Lehigh regions. She was greeted with rounds of appliance as she turned into the hallway leading to the convention hall. The delegates were aware of her coming also, for as she entered the hall she was greeted with a spirited demonstration of welcome During the morning she addressed the delegates.

Another interesting person who spoke during the morning was W. D. Ryan of Springfield, Ill, the Secretary-Treasurer of District 12, United Mine Workers of America, comprising all the local unions in Illinois. He came to Scranton on Thursday and the purpose of his visit, it is understood, is to pledge the material assistance of the mine workers of his State to the strikers and to make available at once no less than a quarter of a million dollars toward their support. This, however, is but a small item in the support which will be given if the strike continues.

quarter of a million dollars toward their support. This, however, is but a small item in the support which will be given if the strike continues.

Very little of what was done at the morning session was given out, but it was said that there was a proloneed discussion of the principal question involved. Finally it was decided to refer all matters to a committee on resolutions who were to decide upon a replactor the offer of the operators to report at the afternoon session. The committee was named as follows: National President Mitchell, President Nicholls, John L. Davis, Olyphant; Louis Hemmerling, Wilkes-Barre and Nicholas Burke, Scranton, of District No. 1: President Fahria, Sam Boyle, Lansford; William Jeffries, Haz'cton, and John Waters, Yorktown, of District No. 7: President Bouffy and George Hartlien, Shamokin: Frank Boyle, Gilberton, and C. C. Pottier, Shamokin, of District of No. 9.

The proceedings of the final session were given out this evening by President Mitchell in typewritten form as follows:

"The afternoon session of the convention was called to order by George Purcell, and while awalting the arrival of the Resolutions Committee, the committee was entertained by songs and recitations from the delegates. At 2.30 the Committee on Resolutions appeared and President Mitchell announced that the committee was ready to report. Secretary Hartlein of the committee read the resolutions drafted by the committee and a motion was made that they be adopted, after which they were explained in the different languages and considerable discussion was indulged in. While the motion was pending President Mitchell addressed the convention and took occasion to deny positively the statements made by some of the metropolitan papers, charging that political influences were dominating the convention, and that the representative of any political party had been in conference with him.

"When the question was put the resolutions were unanimously adopted by a rising vote and amid ringing cheers. A communication from the Inte
